1. Licencing of the Fund by the Regulatory Authority appointed in terms of the Non-Bank Financial Institutions Regulatory Authority Act and the CIU Act, is not an endorsement or guarantee of the Sub Fund, nor is the Regulatory Authority responsible for the accuracy of the contents of this prospectus. The Regulatory Authority makes no warranties on the performance or default of the collective investment undertaking.
2. The Regulatory Authority shall not be liable by virtue of its licencing of the Sub Fund, or by reason of its exercise of the functions conferred on it by legislation in relation to the Sub Fund for any default of the Sub Fund. Licencing of the Sub Fund does not constitute a warranty by the Regulatory Authority as to the credit worthiness or financial standing of the various parties connected to the Sub Fund.
3. The Directors of Morula Management Company accept full responsibility for the information contained in this Prospectus. The Directors have taken all reasonable care and diligence, and to the best of their knowledge the information contained in this document is factual and void of any misrepresentation. The Trust Deed of the Morula Umbrella Fund, which is available on request, forms an integral part of the Prospectus. This Prospectus may be amended from time to time and any subsequent updates will be made available to all unit holders in the Fund and potential investors.
4. Potential investors are advised to consult their financial adviser, stockbroker, bank manager, lawyer, accountant or other professional experts about the contents of this Prospectus. The contents of this Prospectus should not be construed to be advice relating to legal, taxation or other matters. The information is provided on a factual basis to enable potential investors to consider investment in the Fund.
5. The value of any investment and income in the Morula Bond Fund may go up or down. Furthermore, you may not get back the amount you have invested in the Fund. Before investing in the Fund, you should consider your risk appetite and risks involved in such an investment. Please see the "Risk Disclosures" section of the prospectus.
6. The Prospectus is based on Botswana laws as Regulated by Non-Bank Financial Institutions Regulatory Authority under the Collective Investment Undertaking Act.
7. By subscribing for any units in the Fund, all unit holders are being bound by and are deemed to have read the Prospectus and the Trust Deed and have sought any appropriate advice from an expert.
8. Potential investors are referred to "Fund Fees & Expenses" section of the prospectus for detailed information for applicable fees set to be charged by the Management Company for payment to the various service providers such as Investment Manager, Custodian, Trustee, Auditors, Fund Administrators, Legal Services providers and any other fees related to running of the Fund. The Fund will not charge upfront and exit fees for any share class.
9. Potential investors and existing investors are responsible for informing themselves as to the possible tax consequences, the legal requirements, any foreign exchange restrictions or exchange control requirements, and any other laws applicable.
10. The onus is on any person in possession of this Prospectus or any other person wishing to apply for units in the Fund to observe all applicable laws and regulations of the countries of his nationality, residence, ordinary residence or domicile.
11. The Management Company may reject any subscription without giving any reason for such rejection in which event the subscription monies will be returned without interest, expenses or compensation to the applicant by transfer to the applicant's designated account.

12. The Trust Deed, Memorandum and Articles of both Management Company and Trustee, Prospectus and Financial Reports of the Fund (when available) can be obtained from registered office of Morula Management Company as provided in the directory.

Procedures and Conditions

17. Procedures and Conditions

Application for Units

17.1. Issue and Sale of Units

Investing in the Sub Fund shall only be allowed for an investor that has been approved by the overall Morula Umbrella Fund. Applications for subscription of Fund units will only be accepted subject to completion of application form, compliance with requirements of anti- money laundering and terrorism financing section, and receipt of money in the Morula Umbrella Fund account held with the Trustee. The account details will be as stated on the official Morula Application Form or can be confirmed directly with the Management Company or the Trustee. The Management Company reserves the right to reject any Fund application for whatever reason.

Subscriptions will only be accepted via electronic funds transfer. For avoidance of doubt, no physical cash, ATM or in-bank deposit will be accepted by the Management Company.

Issuance of Fund units will normally be made on the Dealing Day in respect of applications received on or prior to the Dealing Deadline.

Dealing Deadline

In respect of Dealing Day, at Botswana time as stipulated in the authorised instruction on the business day preceding the Dealing Day.

Initial Issue Price

100 thebe

Dealing Price

Subsequent dealing unit price will be determined by the Net Asset Value per share of the relevant share class on the applicable Dealing Day.

Redemption Settlement Date: up to two (2) business days after receipt of a duly authorised redemption instruction.

Valuation Point

Close of business in the relevant market on the Business Day of the relevant Dealing Day.

The application will be processed on the dealing day if received before the dealing deadline.

The Manager reserves the right to close/open the fund to new investors at its sole discretion if it deems it is the best interest of existing unitholders.

Repurchase of Units**17.2. Repurchase of Units**

The Fund shall purchase units on request by Unitholders by completing and signing an authorised instruction, and submission to the Management Company by the Dealing Deadline. The purchase price of units will be based on the prevailing price on the Dealing Day. Proceeds shall be paid by the Manager to the unitholder's bank account within two business days after receipt of redemption request.

The Management Company may at its discretion offer to transfer assets of the Sub Fund to the unitholder, so long as it does not prejudice other unitholders. The proportionate holdings of assets will be subject to denominations of instruments and practicality of transfer. All costs associated with the transfer of scrip will be borne by the unitholder. If the unitholder accepts these assets in discharge of its' repurchase, then the unitholder will bear the costs of any transfer of those assets.

The Management Company has the right to limit Fund redemptions to 10% of the total Fund to ensure orderly liquidation of assets and to protect remaining investors in the Fund. The redemptions will be processed in this event on a pro rata basis for all unitholders wishing to redeem. The redemption balances will be carried to the next dealing day and have priority over subsequent redemptions. The Management Company will inform all Unitholders of expected settlement dates which will not exceed one month.

17.3. Refusal to Repurchase Units

The Management Company has the right to suspend redemptions based on the following:

- i. an order of court.
- ii. instruction from any government entity such as but not limited to Financial Intelligence Authority, Directorate on Corruption and Economic Crime, and Botswana Unified Revenue Services.
- iii. any person who does not clear such anti-money laundering and terrorist financing review.

Suspension of Redemptions

18. Circumstances in which repurchase may be suspended

In accordance with Section 75 of the CIU Act, the Management Company may temporarily suspend repurchase of units under exceptional circumstances when it is in the interests of all the unitholders. The Management Company may enact this suspension with the prior consent of the Trustee, or immediately when either the Trustee or the Regulatory Authority requests such suspension. Exceptional circumstances may include but are not limited to the following events:

- i. any unforeseen events such as natural disasters, political and military instability which severely disrupts business operations for the Management Company and service providers or renders it difficult to determine fair valuation for fund assets.
- ii. a bank run on any significant bank in the Fund.
- iii. any event or crisis in which the Directors consider it to be in the best interest of all Unitholders.
- iv. directive from the regulator to do so.

The Regulatory Authority and Unitholders will be notified without delay about the suspension of redemptions and subscriptions.

19. Distribution of income

The sub fund will distribute all of its chargeable income as prescribed in the income Tax Act at least annually on 30 June of each year.

- 19.1.1. The Management Company will be entitled to deduct an amount in respect of withholding tax for all dividends and interest received by the sub fund as required by the tax laws of Botswana. Refer to section on **Taxation of the Prospectus** for more information.

Where the limits of this section are subsequently exceeded for reasons beyond the control of an undertaking or as a result of the exercise of subscription rights, the undertaking shall adopt, as a priority objective, the remedying of that situation, taking due account of the interests of its unit holders.

Borrowing and Lending Powers

20.3. Borrowing Powers:

20.3.1. The Sub Fund shall be entitled to make such borrowings as it deems fit, however it shall not borrow any sums which in aggregate exceed 25% of the net asset value of the sub fund, and only to bridge insufficient liquidity to meet the repurchase or cancellation of participatory interests. The manager must obtain the prior consent of the trustee to the borrowing.

20.3.2. The Sub Fund shall be entitled to lend its scrip.

Efficient Portfolio Management

21. Techniques and instruments to be used for the purposes of efficient portfolio management:

- 21.1. The sub fund may use derivative instruments for efficient portfolio management purposes. Derivatives are financial instruments in which the value of the instrument is determined by the value of the underlying instrument.
- 21.2. The use of derivatives should be in the best interest of all Unitholders primarily for the following reasons:
 - 21.2.1. risk reduction.
 - 21.2.2. cost reduction.
 - 21.2.3. performance enhancement.
- 21.3. Derivative instruments to be used for EPM purposes will be limited to interest rate swaps, exchange rate swaps, reverse purchase agreements and securities lending. The use of exchange rate swaps should ensure that the Fund effective exposure of the swap is BWP for the Fund. For avoidance of doubt, the instrument value should not change due to changes in exchange rate

Over the Counter Contracts for Interest Rate Swaps and Exchange Rate Swaps.

- 21.4. As per CIU Act, interest rate swaps and exchange rate swaps are permitted provided:
 - 21.4.1. the counter party has shareholders' funds in excess of P500 million or equivalent in foreign currency.
 - 21.4.2. the name of the counter party is disclosed in the subsequent half yearly or annual reports issued by the Fund.
 - 21.4.3. the Management Company is satisfied that the counter party shall value the transaction at least weekly.
 - 21.4.4. close out the position at the request of the Management Company at a fair valuation.
 - 21.4.5. initial outlay in respect of the OTC derivatives to any counterparty shall not exceed 5% of the net asset value of the Fund.
- 21.5. The net maximum potential exposure created by techniques and instruments, borrowing or through both, shall not exceed 25% of the Fund.

Reverse Purchase Agreements or Securities Lending

- 21.6. Reverse repurchase agreements (repo-contracts) will be effected in accordance with normal market practice. Collateral obtained under repo – contracts or securities lending agreement shall be in the form of:
 - 21.6.1. cash
 - 21.6.2. government or other public securities
 - 21.6.3. certificates of deposit
 - 21.6.4. letters of credit which are unconditional and irrevocable, and which have a credit rating of A1/P1 or better. Should there be no ratings, the Investment Manager will utilize their proprietary models to determine the rating which can be deemed reasonable by a professional investor or independent credit rating agency.
 - 21.6.5. certificates issued by securities exchange clearing system.

- 21.7. Until the expiry of the repo-contract or securities lending agreement, securities obtained under such contracts or agreement shall:
- 21.7.1. not be sold or pledged.
 - 21.7.2. exceed in value, at all times, the value of the amount invested or securities loaned.
 - 21.7.3. be marked to market daily; and
 - 21.7.4. be transferred into the name of a trustee, custodian or its agent.
- 21.8. The counter party to a repo -contract or stock lending agreement shall have a minimum credit rating of A2/P2 or better. If no independent credit ratings are available, the same methodology of 4 above will apply.

Risk Disclosures

21.8.1. General Risks

Investment into the Fund carries risk. Prospective investors should consider the risks disclosed in this section before investing. Unitholders are cautioned that the risks disclosed in this section should not be considered as an exhaustive list. For avoidance of doubt, the Fund may be exposed to risks of exceptional nature not described in this Prospectus from time to time.

As the price of Unit of the Fund may fall as well as rise, the Fund shall not be a suitable investment for an investor who cannot sustain a loss on his investment.

Past performance of the Fund should not be relied upon as an indicator of future performance.

21.8.2. Investment Risks

21.8.3. General Investment Risk

No investment is ever deemed risk free. Accordingly, the Manager makes no assurance of investment into the sub-fund and or appreciation of value of the Fund units. The Fund may not be able to meet its stated investment objective. Prices of units may rise and fall.

- 21.8.4. Investment of capital in equities can result in loss of capital, and moderate to high volatility of Fund unit price.

- 21.8.5. Investment of capital in bonds/money market instruments is not equivalent to placing funds on deposit with a bank or deposit taking company. Thus, investors should be aware that the value of investment can decrease or increase in value. Furthermore, investors may not get back their principal invested.

21.8.6. Variable Distribution Levels Risk

The distributions paid by the fund generally depend on the amount of income distributed by the fund's investment assets. As a result, the funds distribution rate may fluctuate up or down depending on market, interest rate or other circumstances.

21.8.7. Credit Risk

The issuers of the securities or other instruments in which the Fund may invest in may be subjected to financial difficulties which may result in partial or full loss of capital invested and or loss of full or partial interest due to the Fund.

21.8.8. Changes in Interest Rates Risk

The valuation of bond securities is subject to fluctuate with changes in market interest rates. In general, bond prices are inversely related to changes in market interest rates. An increase in interest rates will generally lead to decline in bond prices for fixed interest bonds, and vice versa. Furthermore,

the longer the time to maturity, the greater the variation, and vice versa.

21.8.9. Inflation Risk

Returns from the Fund may not keep up with inflation, which means that the value of your investment may decline in real terms over time.

21.8.10. Liquidity Risk

A lack of liquidity of publicly traded securities may result in the market price being substantial different from the realisable value.

21.8.11. Credit Rating Risk

Debt securities with credit ratings provided by credit rating agencies may be subject to fluctuations in their market value due to rating changes. A rating downgrade will typically lead the to the price decline of the security.

21.8.12. Benchmark Risk

The benchmark provider reserves the right to modify and amend the benchmark at their discretion which may include but not limited to security valuation methodology, inclusion and exclusion criteria if any, and publication procedures. There can be no assurances that the benchmark will continue to be published indefinitely.

Should the benchmark cease, the Manager will adopt a similar benchmark that has similar investment objectives and parameters and communicate to all Unitholders as soon as practical.

For avoidance of doubt, potential investors should be aware that by investing in the Fund, they are agreeing to similar risk profile as the benchmark.

21.8.13. Past Performance Risk

The Investment Manager past performance of the Fund should not be construed as an indication of the future performance.

21.8.14. Custodian Risk

The Fund Custodian is responsible for safekeeping of all financial instruments that can be held in custody ("Custody Assets"). Lapses in the custodian fulfilling their obligations as set out in the Custody agreement, which leads to loss of Fund assets, will lead to custodian making the Fund whole as stipulated in the agreement. The Fund may in this instance be subjected to delay in receiving the full value of assets due.

The Fund may from time to time invest in financial instruments that cannot be held in custody. In such instances, the Custodian is only required to verify the Fund ownership and keep record of the assets. In the event of any loss of non-custody assets, the custodian liability is limited to only their function of asset ownership verification and record.

Examples of non-custody assets include over the counter derivatives, unlisted bond instruments and direct property investment.

Potential investors should be aware that there is a possibility of loss of non-custody assets that may not be recoverable.

21.8.15. Derivatives Risk

The Fund will use derivatives only for efficient portfolio management. The use of derivatives exposes the Fund to additional risks different from investing in underlying securities directly. Derivatives risks includes mispricing, divergence of the value of derivative from the underlying security due to

imperfect correlations, and losses greater than principal amount invested.

21.8.16. The following are key risks of derivatives that potential investors should be aware of:

21.8.17. Legal Risk: The legal agreements of OTC derivatives may be subject to disputes by either party at a later date due to omission of key information or misunderstanding or other unforeseen issues.

21.8.18. Counterparty risk: the risk that the counterparty may face financial difficulties which may lead them to be unable to fulfil their contractual obligations. The Fund may suffer losses due to counterparty bankruptcy if the derivative has value in favour of the fund.

21.8.19. Leverage Risk

The Fund may engage in borrowing as stipulated in the Borrowing and lending section. The use of leverage increases the Fund's exposure to capital risk and interest costs. The use of leverage can materially amplify the gains and losses of the Fund and unitholders.

21.8.20. Financial Markets Events Risk

Events in Botswana and the global financial markets, including actions taken by the central banks and the regulatory authorities to stabilize and build confidence in the industry may at times result in market volatility which could negatively impact performance.

21.8.21. Redemption Risk

A significant redemption of Units in the Fund might result in forced selling of assets at unfavourable prices.

21.8.22. Investment in Collective Investment Undertaking ("CIU") Risk

The Fund may invest in one or more funds managed by the Investment Manager or another investment manager. The Fund will bear, along with other unitholders, a pro rata portion of the expenses of the other fund, excluding investment management. The fees will be in addition to the investment management fees and other expenses of the Fund. The investment management fees will remain as those of the relevant Fund share class in which the Unitholder invested in.

21.8.23. Operational and Regulatory Risks

21.8.23.1. Key Personnel Risk

Investment Managers are dependent on services of certain key employees for investment research which drives investment performance of the Fund. While succession planning is in place for the appointed Investment Manager, untimely death, departure, or incapacity may affect the Fund investment performance adversely.

21.8.23.2. Financial Markets Regulatory Changes

Local laws and regulations affecting businesses continue to evolve in response to crisis's, scandals, and global best practice. Taxation laws, regulatory oversight and broker fees amongst others can change in an unpredictable manner. Changes in laws can materially affect the business operating model and strategies which may subject the Manager and its appointed Investment Manager to more stringent restrictions.

21.8.23.3. Valuation Risk

There may be unlisted investments whereby the Investment Manager has to provide probable realisable valuations on the instruments. There is an inherent conflict of interest, whereby the Investment Manager's fees increase with the value of assets. The Investment Manager has in place pricing procedures and guidelines which follow industry standard practice for valuing unlisted

securities. Nonetheless, there can be no assurance that the valuation represents arms' length price or probable realisable value.

21.8.23.4. Tax Risks

Changes in taxation laws in Botswana can result in adverse effect on the Net Asset Value of the Fund.

21.8.24. Operational Risks

The Manager and its services providers may face operational risks such as failure in systems and technology, inadequate or failed internal or external controls, human and processing errors, high staff turnover and intrusion by unauthorised persons. Despite internal controls and oversight policies and procedure in place by all Fund service providers, no assurance can be made that failures will not occur. The failures can result in service disruption and Fund losses.

Globally there is a trend of rising cyber security attacks or similar threats resulting in data security breaches and theft of sensitive confidential information. While all Fund service providers have appropriate information technology systems, business continuity and disaster recovery, no firm is immune from any attack. Any security breach may potentially result in loss of assets and could create significant financial and or legal exposure for the Management Company. Similar incidents affecting issuers of fund securities may negatively impact performance.

Risk Management

Risk will be managed in accordance with Sections 21 of this Prospectus and as stated below.

21.8.25. The assets are in the care of a Trustee that has personnel dedicated to ensuring that the portfolio assets are managed in compliance with the Trust Deed, Supplemental Deed, and this Prospectus. The Trustee is independent of the Asset Manager and Management Company, which ensures that should either party be in difficulty or insolvency, there is no manner by which the assets of this Sub Fund may be attached to meet either party's liabilities.

21.8.26. The Investment Manager shall, in carrying out its obligations, act honestly, in good faith and in the best interests of the Fund unitholders and in connection therewith shall exercise the degree of care, diligence and skill that a reasonably prudent investment manager would exercise in similar circumstances. Notwithstanding the foregoing, the unitholders understand and agree that the Investment Manager does not represent and cannot guarantee performance results for the Fund or mitigation of risks associated with investing in the Fund.

21.8.27. The Investment Manager, Trustee, Custodian, Management Company and all other parties appointed to the Fund shall be obliged to procure and maintain at all times whilst rendering services to the Fund, and at their sole expense, insurance cover to adequately cover risks borne by each party. All appointed parties to the Fund warrant that the amount and form of insurance shall be sufficient to cover such risks as are reasonable and appropriate considering the nature of their businesses and associated risks.

Asset Valuation Methodology

22. Valuation of Assets

22.1. The securities held in the fund will be valued based of the following rules:

22.1.1. The last quoted price for securities listed on any recognised stock exchange or provided by recognised index provider unless the quotation is deemed not representative by a reasonable investor or competent person.

22.1.2. For illiquid securities or unlisted securities, the probable realisable price as determined by the Investment Manager or any other appointed expert.

22.1.3. Cash will be valued at face value plus any accrued interest.

22.2. The Fund assets will be valued on a daily basis as per the above rules.

Calculation of Net Asset Value (Price)

23. Determination of the Sale or Issue Price and the Repurchase Price of Units

23.1. Method and Frequency of Calculation

The Fund price will be calculated daily using acceptable market valuation methodology as indicated in section 22 for the Fund investments.

The Fund NAV is calculated on each Dealing Day by determining the value of assets of the Fund and deducting any liabilities, fund fees such as custody, administration, accounting amongst others as prescribed in the Fund Fees section but excluding investment management fees.

The NAV per Share of each class is calculated by determining the proportion of fund NAV attributable to the share class and deducting the applicable Investment management fees and dividing by the number of units in issue on each Dealing Day.

23.2. Charges relating to sale/issue and repurchase/redemption of units – No charges for redemptions and issuance, regardless of the number of instructions per month per investor.

23.3. Publication of prices – The Fund prices will be published daily on investment manager's website and other media as may be added from time to time.

Anti-Dilution Provision

23.4. Anti-Dilution Provision

The Manager may apply anti-dilution adjustment factor on net subscriptions or redemptions of the Fund on any day to adjust for trading costs, thus protecting existing investors in the fund.

The adjustment in price means that investors joining or leaving the fund pay the associated costs, instead of existing investors in the fund. The anti-dilution adjustment will apply across all share classes once effected. The maximum fee will be based on market trading costs.

Pricing Errors

23.5. Pricing errors

The Fund has adopted global best practice to ensure the minimization of pricing errors. Nonetheless, pricing errors do occur. The Management Company has set 0.5% threshold, based on global best practice, for materiality to determine consideration compensation for Unitholders. There may be circumstances in which the Management Company and the Trustee deem it appropriate to compensate Unitholders for pricing errors below the threshold.

Pricing errors above the 0.5% where the Management Company or its service providers are at fault, will generally be payable to Unitholders. Any decision not to compensate unitholders requires the approval of the Trustee and the Directors of the Management Company.

The Fund Trustee will determine materiality of pricing error on a case by case.

The Regulatory Authority approval of the Fund Prospectus should not be interpreted as approval of materiality of pricing errors or as an endorsement.

Ring Fencing

23.6. Ring Fencing

In extreme cases, the Manager will ring fence significant inflow or redemptions to ensure orderly transacting on behalf of investors. For significant subscriptions or redemptions when the market is

illiquid, the investor will be notified of delay in transacting.

24. Umbrella transfer charges

No charges are applicable for switching of investments between Sub Funds of Morula Umbrella Fund.

Fund Fees and Expenses

25. Fund Fees and Expenses

25.1. No upfront fees will be charged for any Fund subscriptions into any share class.

25.2. The fund expenses in respect of the **Morula Bond Fund** shall be calculated at the following annual percentage rates on the daily market value (excluding income accruals and permissible deductions, if any) of the sub fund.

The fees payable to the Management Company, Investment Manager, Trustee and Custodian are disclosed in Appendix C. These service charges shall not cover other costs of the undertaking (see section 26 below).

25.3. The fees are exclusive of Botswana Value Added Tax, which is not recoverable and therefore a cost to the CIU.

25.4. Additionally, the charge made by Regulatory Authority levies shall be added to this cost and passed on as a cost to unitholders. In turn this amount will then be paid on to Regulatory Authority.

25.5. All costs incorporated in the Total Expense Ratio of the Fund share classes bought by the unitholders will already have been incorporated in the unit price as at that day. Therefore, these costs will also be incurred by unitholders albeit indirectly, and with no direct payment by the Trustee.

25.6. The maximum Total Expense Ratio (TER) of the Fund is 4.0% plus applicable value added tax (VAT) as determined by Botswana Unified Revenue Services.

26. Other costs that will be borne by the undertaking out of the assets of the Sub Fund include:

26.1. In addition to the Fund Fees above, the Fund will be pay out of the net assets of the Fund pay for auditor fees, regulatory levies as applicable, bank charges and fees, fund accounting costs, legal fees, costs incurred in production of prospectus, reports to the Unitholders and all other reasonable costs incurred in operating the Fund.

26.2. Where the cost of service is shared between other Funds managed by the Management Company, the fees will be apportioned on a reasonable and fair basis to each Fund as determined by the Directors.

Taxation Aspects for Unitholders

27. Taxation Aspects for Unitholders

27.1 General

27.2 The information given in this section is not exhaustive and does not constitute legal or tax advice. Prospective investors should consult their own professional advisers as to the implications of their subscribing for, purchasing, holding, switching or disposing of Units under the laws of the jurisdiction in which they may be subject to tax.

27.3 The following is a brief summary of certain aspects of Botswana taxation law and practice relevant to the transactions contemplated in this Prospectus. It is based on the law and practice and official interpretation currently in effect, all of which are subject to change.

27.4 Dividends, interest, trading or business income and capital gains (if any), which the Sub Fund may receive with respect to its investments may be subject to taxes, including withholding taxes in a country in which the issuers of investments are located. If this position changes and the application of a lower rate results in a repayment to the fund, the Net Value will not be reinstated, and the benefit will be allocated to the existing Unitholders proportionately at the time of repayment.

The Morula Umbrella Fund

27.5 The Morula Umbrella Fund qualifies as a collective investment undertaking as defined in Section 2 of the Income Tax Act. In terms of Section 2 as read with Section 130 (2)(a)(v) of the Income Tax Act the Fund is treated as a public company, subject to tax at the company rate of tax, currently 22%.

27.6 In terms of section 22 of the Income Tax Act, the fund is chargeable to income tax on the undistributed amount of its chargeable income and the amount of chargeable income that has been distributed to Unitholders is to retain its form and be taxed as such in the hands of Unitholders.

27.7 Taxation is computed on the aggregate of all the separate Sub Funds making up the Morula Umbrella CIU, with each Sub Fund recording and accounting for taxation to its unitholders as though it was a separate taxable entity.

Unitholders Tax

27.8 Income distributed by the Fund retains its form and is chargeable to tax in the hands of a Unitholder, subject to the tax status of the Unitholder.

27.9 Unitholders who are resident in Botswana are ordinarily required to declare the income they earn from the Fund for tax purposes except if they are exempt from Income Tax or where they receive dividends which would have suffered Withholding Taxes at source.

Dividends and Interest

27.10 Where the income of the Fund comprises of dividends from issuers in which the Fund is invested, if the issuer is a Botswana company, and has withheld an amount as prescribed by the Income Tax Act on that dividend and remitted same to the Commissioner General, that withholding tax is a final tax on the dividend and the dividend remitted by the fund to a Unit holder will not be subject to further tax. Where dividend income of the Fund is derived from issuers that are not Botswana resident companies, and that dividend income is passed on to Unitholders, Unitholders will be liable to pay tax at the rate as prescribed by the Income Tax Act on the amount of dividend received.

27.11 Where the income of the Fund is interest, paid by an issuer in which the Fund is invested, and that interest is passed on to Unitholders, Unitholders will be subject to withholding tax on the interest so received, subject to the tax status of the Unitholders.

27.12 In the event that tax is withheld from interest paid by a Botswana resident payer of the interest, then the tax withheld can be claimed as a credit against any tax payable by the Unitholder, in respect of the interest received from a Botswana source. Unitholders who are obliged to pay tax on dividends or interest in Botswana can claim credit against tax, if any, payable by them in respect of dividend or

interest received from a foreign source, for any tax withheld at source in respect of dividend or interest derived from a foreign source.

GENERAL INFORMATION

Conflicts of Interest

28. Conflicts of Interest

The Management Company and Investment Manager, the Fund Administrator, Bank, Custodian and Trustee and any of their subsidiaries, associates ("Related Parties") may engage in business with one another or with the Fund by contracting or entering into a financial, banking and transactions amongst others without limitation, investment by the Fund or any of the Related parties in shares of any of the related parties without limitation.

There is a potential conflict of interest that may arise due to the Fund having the Custodian, Trustee and banking partner of the same group of companies or associates. When a potential conflict arises, all parties shall act fairly and in the best interest of the Fund as per their obligations, on terms which would be the same or similar if the conflict or potential conflict had not existed.

Any commission which may be paid to the Investment Manager, for an investment into a third-party fund or related party fund, or transaction will be entirely for the benefit of the Fund and not the Investment Manager.

Conflicts of interest are identified, managed, and monitored on an ongoing basis by the Management Company and Investment Manager on behalf of the Fund. When a potential conflict arises, all parties shall act fairly and in the best interest of the Fund as per their obligations, on terms which would be the same or similar if the conflict or potential conflict had not existed.

There is a potential conflict of interest in that the Management Company is a subsidiary of the Investment Manager. Due to the nature of investments, there is no guarantee that the Investment Manager investment performance will be in line with Management Company, and/or Unitholders in the Fund expectations. Unless in the event of winding up the Fund, and material breaches to the contractual obligations, the Management Company is likely not to terminate the Investment Manager for below par investment performance. **Potential Unitholders are advised to continuously assess the Investment Manager performance in line with their own expectations and fund objectives and make an assessment of ongoing investment in the Fund.**

Each of the related parties above have clear obligations and recourse as defined under per the contractual agreement.

Potential investors should be aware that the potential conflicts above are not exhaustive. The Conflict-of-Interest Policy of the Management Company is available on request.

Anti-Money Laundering and Counter-Terrorist Financing Measures

29. Anti-Money Laundering and Counter-Terrorist Financing Measures

The Financial Intelligence Act (FIA) of Botswana requires detailed verification of the applicant's identity as part of measures to prevent money laundering and terrorist financing. The Management Company has an obligation to undertake due diligence before commencing to take subscriptions from potential investors as per the FIA to establish and verify the identity of the customer.

Material Contracts

31. Material Contracts

The following contracts are deemed material and have been entered into between the Fund and third parties in the ordinary course of business:

- 31.1. **Investment Management Agreement** effective September 30, 2020 between Morula Umbrella Fund and the Investment Manager. This Agreement will continue indefinitely until terminated by either party by giving a minimum of thirty (30) days written notice. The Agreement allows for immediate termination under certain circumstances in favour of the Fund for such as but not limited to fraud, bad faith and negligence amongst others.
- 31.2. **Custody and Trustee Agreement** effective October 9, 2020 between Morula Umbrella Fund and the Custodian & Trustee. This Agreement will continue indefinitely until terminated by either party by giving a minimum of ninety (90) days written notice. The Agreement allows

for immediate termination under certain circumstances in favour of the Fund for such as but not limited to fraud, bad faith and negligence amongst others.

32. Minimum Viable Size Creation Value

The minimum viable size of the Fund is BWP10 million, and if the Fund does not reach this size within 2 years from date of registration, then the Directors of the Management Company reserves the right to wind up this Fund subject to approval from the Regulatory Authority. The process of winding up the fund will be as per section 15. All unit holders are entitled to the value of their units as determined by the methodology stated in section 9.1.

The Directors of the Management Company have similar rights if subsequently the Fund reduces below BWP10million.
